

ABOUT ME

Curious and passionate about technology, always eager to learn new things every day.

Currently looking for a new position to develop my skills in software and 3D algorithms.

EDUCATION

MASTER'S DEGREE // COMPUTER SCIENCE COMPUTER VISION & 3D TECHNOLOGIES

[2022]

Université Claude Bernard - Lyon 1

Lyon, France

BACHELOR'S DEGREE // COMPUTER SCIENCE

[2019]

Université Claude Bernard - Lyon 1

Lyon, France

EXPERIENCES

COMPUTER VISION & ROBOTICS ENGINEER

[2022 - NOW]

Innodura TB

Lyon, France

- Development of advanced robotics software solutions
 - Applications : bin picking, automatic hanging, laser stripping, robotic polishing
- Development & integration of **3D vision** & **AI** algorithms
- Definition & implementation of robotics software architectures
 - Backend architecture (**ROS 2**), frontend web interface (**ReactJS**, **ThreeJS**), backend-frontend communication via **WebSocket**
- Robotics : ABB / STÄUBLI
- 3D sensors : ZIVID / SICK / VISIONERF / KEYENCE

INTERNSHIP R&D - ROBOTICS

[2022 - 6 months]

Innodura TB

Lyon, France

Integration of path-planning algorithms for mining robot applications and industrial bulk material handling applications.

- ROS / MoveIt / Path planning / PCL / Octomap / Voxels

INTERNSHIP SOFTWARE DEVELOPMENT

[2019 - 2 months]

SENZU SAS

Lyon, France

Development of software for reading & encoding NFC chips.

- Knowledge of NFC technology
- Software development using C# / WPF / MVVM

SEASONAL FARM WORKER

[2013 - 2016 (summers)]

EARL, Les Pends

Tain l'Hermitage, France

Fruits harvesting & vineyard work

PROJECTS

CITY REPRESENTATION IN UNITY

CityGML | C++ | Unity

Modeling the city of Lyon in Unity using CityGML data.

Details : <https://github.com/VCityTeam/DA-POM-VilleUnity>

GEOMETRIC MODELING SOFTWARE

C++ | QT

Software development for modeling Bézier surfaces, surfaces of revolution, and mesh deformation, using QT & C++.

BACKGROUND REMOVAL & REGION GROWING

C++ | OpenCV

Using OpenCV to remove the background from a video (silhouette extraction) and implementing a region-growing algorithm to segment an image.

HOBBIES

CINÉMA

VIDEO GAME

INVESTMENTS

SPACE

VOLLEYBALL
